CONTENTS

Phonetics **1**
V. Josipovi Smojver, *Department of English, University of Zagreb, Croatia*

1. Introduction
2. Articulatory phonetics
   2.1. The organs and physiology of speech
   2.2. Consonants
   2.3. Vowels
3. IPA notation
4. Acoustic phonetics
5. Auditory phonetics
6. Instrumental measurements and experiments
7. Suprasegmentals
8. Practical applications of phonetics
   8.1. Clinical phonetics
   8.2. Forensic phonetics
   8.3. Other areas of application

Phonology **36**
V. Josipovi Smojver, *Department of English, University of Zagreb, Croatia*

1. Introduction
2. The basic notions of phonology
   2.1. Segments of sound
   2.2. Distinctive features
      2.2.1. The nature of distinctive features
      2.2.2. The classification of distinctive features
         2.2.2.1. Major class features
         2.2.2.2. Laryngeal features
         2.2.2.3. Manner features
         2.2.2.4. Place features
   2.3. Suprasegmentals
      2.3.1. Prosodic features, domains and rules
      2.3.2. Prosodic typology
         2.3.2.1. Rhythmic typology
         2.3.2.2. Tonal typology
3. Phonological theories and models
   3.1. Structuralist phonology
   3.2. Generative phonology
      3.2.1. Derivational phonology
         3.2.1.1. Linear (SPE) phonology
         3.2.1.2. Post-SPE phonology
      3.2.2. Non-derivational phonology: optimality theory

Morph-o-logic-al-ly Engin-eer-ed Word-s **69**
B. J. Tkaczyk, *Department of Polish and English Comparative Linguistics, John Paul II Catholic University of Lublin*

1. Introduction
2. Fashions in Morphology
3. Clarifying the Scene (Terms) & Constructing Morphology (Building Blocks)
4. Hard-core Morphology: Operations
   4.1. Word-Formation

4.1.1. Compounding
4.1.2. Derivation
4.1.2.1. Primary Derivation (Affixation)
4.1.2.1.1. Prefixation
4.1.2.1.2. Suffixation
4.1.2.1.3. Circumfixation
4.1.2.1.4. Interfixation
4.1.2.1.5. Infixation
4.1.2.1.6. Transfixation
4.1.2.1.7. Postfixation
4.1.2.1.8. Reduplicative Affixation (=*clonefixation*)
4.1.2.1.9. Suprafixation
4.1.2.2. More Derivations (More Problematic Cases)
4.1.2.2.1. Do Subtractive Morphologies Equal 'Minus'?
4.1.2.2.2. Truncation is Templatic
4.1.2.2.3. Does Shortening Mean Loss? (Dynamic Acronymization)
4.1.2.2.4. Back-Formation is Additive
4.1.2.2.5. Can ZERO be Concatenative? (Cognitive Conversion)
4.2. *Split* the Ticket: Inflection vs. Derivation
5. Morphology (at the beginning) of the 21st Century (From A-Z)
6. Conclusions

Syntax **105**
Mario Brdar, *School of English Studies, Faculty of Philosophy, Josip Jural Strossmayer University of Osijek, Croatia*
Rita Brdar-Szabó, *School of Germanic Studies, Faculty of Philosophy, Loránd Eötvös University of Budapest, Hungary*

1. Introduction
2. Basic syntactic concepts
2.1. Organizational principles of grammatical structure
2.2. Constituency
2.3. Dependency
2.4. Embedding and recursiveness
2.5. Subordination and coordination
2.6. Word order
3. Syntactic units
3.1. Phrases
3.1.1. Types of phrases
3.1.2. Structure of phrases
3.2. Clauses and sentences
3.2.1. Valency
3.2.2. Grammatical relations
3.2.3. Types of clauses and sentences

Semantics **163**
M. L. Dumitru, *Department of Linguistics, The University at Buffalo, SUNY*

1. Introduction
1.1. Semantics and Related Disciplines
1.2. The Linguistic Sign
1.3. Semantic Principles
2. Lexical Semantics
2.1. Semantic Relations and Semantic Fields
2.2. Componential Analysis
3. Sentence Semantics

3.1. Semantic Roles
3.2. Generative /vs./ Interpretive Semantics
3.3. The Standard Theory
3.4. Pustejovsky's Generative Lexicon
4. Formal Semantics
4.1. Statement Logic (SL)
4.2. First Order Predicate Logic (FOPL)
4.3. Events Semantics
4.4. Second Order Logic
4.4.1. Lambda Calculus
4.4.2. Generalized Quantifier Theory
4.4.3. Intensional semantics
5. Dynamic Semantics (DS)
6. Further Semantics
7. Conclusion

Sociolinguistic Variation And Change **202**
Miriam Meyerhoff, *Linguistics and English Language, University of Edinburgh, UK*

1. Sociolinguistics and the Study of Variation and Change
1.1. Is Variation "Free" or Structured?
1.2. The Role of Constraints on Variation
2. Methods for Studying Variation and Change
3. Linguistic Constraints on Variation
3.1. Progress of Change
3.2. Apparent Time
4. Social Dimensions of Variation
4.1. Style Effects
4.1.1. Stylistic Stratification of Variables
4.1.2. Stereotypes, Markers, Indicators and the Speech Community
4.2. Social Class or Social Network Effects
4.3. Gender Effects
5. Directions in the Sociolinguistic Study of Variation and Change

Language and Identity **224**
S. M. Pugh, *Department of Russian, the University of St Andrews, Scotland, UK*

1. Introduction
2. Identity in General
2.1. Family
2.2. Sociology
2.3. Psychology
2.4. History/politics
2.5. Nationalism
3. Language and Identity I: the Individual
3.1. Case Studies: the Individual
3.2. An unexpected episode
4. Language and Identity II: the Community
4.1. Sociological aspects
4.2. Europe
4.3. Majority and Minority Languages
5. Case Studies
5.1. France and French
5.1.1. Brittany and Breton
5.1.2. Catalan
5.1.3. Alsatian, Alsacien, Elsässisch

5.2. Spain and Spanish
5.3. Scandinavia
5.3.1. Finland
5.3.2. Sweden
5.4. Germany
5.5. Former Yugoslavia
5.6. Former USSR
5.6.1. The Finno-Ugric Peoples
5.6.1.1. Estonia
5.6.1.2. Karelian
5.6.2. Ukraine and Belarus
5.6.2.1. Ukrainian
5.6.2.2. Belarusian
5.6.2.3. Rusyn
6. Conclusions

Sign Languages **253**
C. Plaza Pust, *Department of Modern Languages, University of Frankfurt am Main, Germany*

1. Introduction
2. The visual-gestural nature of sign languages
2.1. Sign language articulators
2.2. The signing space
3. The grammar of sign languages
3.1. Form-meaning relationships in sign languages
3.2. Sign language phonology
3.3. Sign language morphology
3.3.1. Compounding
3.3.2. Derivation
3.3.3. Inflection
3.4. Sign language syntax
4. The sociolinguistics of sign languages
4.1. Historical documentation of sign languages
4.2. Social and educational changes in the 19th century
4.3. Deaf communities as linguistic minorities
5. The acquisition of sign languages
5.1. The acquisition of sign language as a mother tongue
5.2. The acquisition of sign language as a second language
5.3. Sign bilingual acquisition
5.3.1. Sign bilingual education
5.3.2. The bilingual acquisition of a signed and a written language
6. Sign bilingualism
6.1. Types of bilingualism
6.2. Sign language contact

Pidgins and Creoles **290**
Genevieve Escure, *Department of English, University of Minnesota, Minneapolis, USA*

1. Introduction
2. Some general properties of pidgins and creoles
3. Pidgins: Incipient communication
3.1. Chinese Pidgin English
3.2. Russenorsk
3.3. Hawaiian Pidgin English
4. Creoles: Expansion, stabilization and variability
4.1. Basilect

4.2. Acrolect
4.3. Mesolect
5. Theoretical models and current trends in PC studies
5.1. Early models
5.1.1. Substratist position
5.1.2. Universalist position
5.2. Developments of the substratist position
5.2.1. Monogenesis
5.2.2. Relexification
5.2.3. Substrates and adstrates
5.2.4. Superstrates
5.3. Developments of the universalist position: The bioprogram
6. The (post)creole continuum and decreolization
7. New trends
7.1. Sociohistorical evidence
7.2. Demographic explanations
7.3. Acquisition
8. Conclusion

Code-Switching **312**
Nada Šabec, *Department of English and American Studies, University of Maribor, Slovenia*

1. Introduction
2. Definitions and terminology
2.1. Code-switching vs. borrowing
2.2. Code-switching vs. code-mixing
3. Various approaches to studying code-switching
3.1. Sociolinguistic approach
3.2. Structural approach
3.2.1. Structural constraints on code-switching
4. Attitudes toward code-switching
5. Conclusion

Computational Linguistics **328**
Nicoletta Calzolari, *Istituto di Linguistica Computazionale del Consiglio Nazionale delle Ricerche (ILC-CNR), Pisa, Italy*

1. What is Computational Linguistics
1.1. A few sketches in the history of Computational Linguistics
2. Automatic text processing
2.1. Parsing
2.2. Computational lexicons and ontologies
2.3. Acquisition methodologies
3. Applications
4. Infrastructural Language Resources
4.1. European projects
5. NLP in the global information and knowledge society
5.1. NLP in Europe
5.2. Production and "intelligent" use of the digital content (also multimedia)
6. Future perspectives
6.1. The promotion of national languages in the global society and the new Internet generation

Cognitive Linguistics **346**
S. T. Tsoneva-Mathewson, *Department of Modern Languages, St. Andrews University, Scotland, UK*

1. Introduction
    1.1. Setting up the scene: the cognitive ‘revolution’ and ‘counter-revolution’
        1.1.1. Formal syntax: The Mind as a Computer Metaphor
        1.1.2. Objectivist Semantics
2. Cognitive Linguistics: Core Concepts
    2.1. Cognitive Linguistics and Linguistic Cognition
    2.2. Weaving the web of meaning
3. The Embodiment of Meaning
    3.1. The psychological and conceptual view of word meanings
    3.2. The Prototype Model of Categorization
        3.2.1. The Classical Model of Categorization
        3.2.2. Prototype Effects and the Internal Structure of Categories
        3.2.3. Levels of categorization: basic-level categories
    3.3. Image Schemas as Cognitive Processes
        3.3.1. Basic Image Schemas: Preconceptual and Conceptual
        3.3.2. Other construal operations: Figure and Ground, Trajector and Landmark
4. Domains and Idealized Cognitive Models (ICM)
    4.1. Profiles and frames/domains
    4.2. Idealized Cognitive Models
5. Metaphors
6. Meaning and grammar. The cognitive basis of grammar
    6.1. Figure and ground in clauses
    6.2. Models, role archetypes and clause structure
        6.2.1. Unmarked Clause Structure
        6.2.2. Marked Clause Structure: Examples
    6.3. More Construal Operations
        6.3.1. Scanning
        6.3.2. Viewing arrangement
7. Construction Grammar and Radical Construction Grammar
8. Conclusion

Forensic Linguistics **378**
John Olsson, *Nebraska Wesleyan University, Lincoln, Nebraska*
Forensic Linguistics Institute International consultant to law enforcement agencies and legal professionals, Wales, United Kingdom

1. Forensic Linguistic
    1.1. What is forensic linguistics?
        1.1.1. Legal Cases and Proceedings
        1.1.2. The investigative stage
        1.1.3. The trial stage
        1.1.4. The appeal stage
        1.1.5. Private disputes
2. History and development of Forensic Linguistics to the present
3. Forensic Phonetics
4. Summary of the Development of Forensic Linguistics
5. Forensic Linguistics in the Justice System

Language Teaching Methodology and Second Language Acquisition **394**
J. Mihaljevic Djigunovic and M. Medved Krajnovic, *Department of English, University of Zagreb, Croatia*

1. Introduction
2. Language teaching methodology
    2.1. Historical overview of foreign language teaching (FLT) methods
    2.2. The present

2.2.1. Communicative language teaching (CLT)
2.2.2. Task-based language learning
2.2.3. Computer-assisted language learning (CALL)
2.3. Content of language teaching
2.3.1. Pronunciation
2.3.2. Grammar
2.3.3. Vocabulary
2.3.4. Literature
2.3.5. Intercultural communication
2.3.6. Language for specific purposes (LSP)
2.4. Teaching language skills
2.5. Syllabus design
2.6. Materials development
2.7. Language assessment
2.8. The language classroom
2.8.1. Classroom interaction
2.8.2. Classroom management
2.9. The language learner
2.9.1. Learner age
2.9.2. Learner attitudes and motivation
2.9.3. Learner strategies
2.9.4. Other learner characteristics
2.10. Language teacher competences
3. Second language acquisition (SLA)
3.1. SLA: definition and goals
3.2. Historical overview of SLA research
3.2.1. Contrastive analysis
3.2.2. Error analysis
3.2.3. Interlanguage studies
3.2.4. SLA in 1980's and 1990's
3.3. Current research issues
3.3.1. SLA and learning
3.3.2. SLA and age effects
3.3.3. Crosslinguistic interaction
3.3.4. Variation and fossilization
3.3.5. Input and interaction in SLA
3.4. The current state of SLA theories and research methods

EcoLinguistics **418**
A. F. Fill, *Department of English, University of Graz, Austria*

1. Introduction
2. Theoretical basis of ecolinguistics
3. Ecology as Metaphor – the Haugenian paradigm
3.1. Societal language contacts
3.2. Linguistic and biological diversity
3.3. Endangered Languages
3.4. Individual language ecology
4. Language, Nature and environment – the Hallidayan paradigm
4.1. Ecological critique of the language system
4.2. Eco-critical discourse analysis
4.2.1. The discourse of advertising
4.2.2. Euphemizing discourse
4.3. Critique of eco-criticism
5. Applications and future trends
5.1. Applications in Haugenian ecolinguistics
5.2. Applications in Hallidayan ecolinguistics

6. Conclusion

The Art Of Lexicography **437**
Niladri Sekhar Dash, *Linguistic Research Unit, Indian Statistical Institute, Kolkata, India*

1. Introduction
2. Definition
3. The History of Lexicography
4. Lexicography and Allied Fields
   4.1. Lexicology and Lexicography
   4.2. Linguistics and Lexicography
   4.3. Grammar and Lexicography
   4.4. Encyclopedia and lexicography
5. Typological Classification of Dictionary
   5.1. General Dictionary
   5.2. Normative Dictionary
   5.3. Referential or Descriptive Dictionary
   5.4. Historical Dictionary
   5.5. Etymological Dictionary
   5.6. Dictionary of Loanwords
   5.7. Encyclopedic Dictionary
   5.8. Learner's Dictionary
   5.9. Monolingual Dictionary
   5.10. Special Dictionaries
6. Electronic Dictionary
7. Groundwork for Dictionary Making
   7.1. Panning
   7.2. Data Collection
   7.3. Extraction of lexical items
   7.4. Selection of Lexical Items
   7.5. Mode of Lexical Selection
8. Dictionary Making: General Dictionary
   8.1. Headwords
   8.2. Spelling
   8.3. Pronunciation
   8.4. Etymology
   8.5. Morphology and Grammar
   8.6. Meaning
   8.7. Illustrative Examples and Citations
9. Conclusion

Corpus Linguistics: An Introduction **475**
Niladri Sekhar Dash, *Linguistic Research Unit, Indian Statistical Institute, Kolkata, India*

1. Introduction
2. What is a Corpus?
3. Salient Features of Corpus
   3.1. Quantity
   3.2. Quality
   3.3. Representation
   3.4. Simplicity
   3.5. Equality
   3.6. Retrievability
   3.7. Verifiability
   3.8. Augmentation
   3.9. Documentation

4. Types of Corpus
   4.1. Genre
   4.2. Nature of Data
   4.3. Type of Text
   4.4. Purpose of Design
   4.5. Nature of Application
5. Issues Related to Written Corpus Generation
   5.1. Why Corpora are Needed?
   5.2. Factors Related to Written Corpus Generation
   5.3. Size of Corpus
   5.4. Representation of Text Types
   5.5. Determination of Time Span
   5.6. Selection of Text Documents
   5.7. Selection of Writers
   5.8. Determination of Target Users
6. Process of Written Corpus Generation
   6.1. Method of Text Selection
   6.2. Methods of data entry
      6.2.1. Texts from electronic resources
      6.2.2. Text from Internet
      6.2.3. Data collection by OCR system
      6.2.4. Manual word entry
   6.3. Method of Corpus Sanitation
      6.3.1. Omission of Character
      6.3.2. Addition of Character
      6.3.3. Selection of Wrong Character
      6.3.4. Repetition of Character
      6.3.5. Transposition of Character
   6.4. Method of Corpus Management
7. Functional Relevance of Corpus
8. Conclusion

Historical Evolution of World Languages **511**
Ranko Matasović, *University of Zagreb, Croatia*

1. Introduction
2. Models of language spread
   2.1. Wave of advance
   2.2. Elite dominance
3. Language families in the Old World
4. Language families in the New World
5. Recent history
6. Conclusion

Index **523**

About EOLSS **531**
