VOLUME I

International Economics, Finance, and Trade 1
Pasquale M. Sgro, Deakin University, Australia

1. Introduction
2. Historical Development
3. Trade, Growth, and Sustainable Development
4. Tariffs and Trade Liberalization
5. Preferential Trading Agreements and Integration
6. The Geography of International Trade
7. International Finance
   7.1. Barter
   7.2. Money
   7.3. Money and credit
8. The Balance of Payments
9. Financial Institutions
10. Multinational Banking
11. Emerging Capital Markets
12. International Trade Law
13. Sustainable Development

International Economics 34
Bharat Raj Hazari, Deakin University, Australia
Pasquale M. Sgro, Deakin University, Australia

1. Introduction
2. Trade Models
3. Economies of Scale
   3.1. Economies of Scale with Perfect Competition
   3.2. A Model of Monopolistic Competition
4. Factor Movements
   4.1. Direct Foreign Investment and Multinational Firms
   4.2. Portfolio Investment and Labor Migration
5. Economic Integration
6. Foreign Exchange Markets

Comparative Advantage and Trade Policy 54
Bharat Raj Hazari, Deakin University, Australia
Pasquale M. Sgro, Deakin University, Australia

1. Introduction
2. Comparative Advantage
   2.1. The Ricardian Theory of Comparative Advantage
   2.2. The Heckscher-Ohlin Theory of Comparative Advantage
3. Free Trade
4. Tariff and Non-Tariff Barriers
5. International Trade Policy
**Resources, Trade, and Integration**
69  
Bharat Raj Hazari, *Deakin University, Australia*  
Pasquale M. Sgro, *Deakin University, Australia*

1. Introduction  
2. The Dutch Disease  
3. Internal Migration and Unemployment  
4. Economic Integration

**Economies of Scale and Imperfect Competition**
82  
Bharati Basu, *Central Michigan University, USA*

1. Introduction  
2. Economies of Scale and Imperfect Competition  
3. Intra-Industry Trade and Love of Variety  
   3.1. Varieties and Scale  
   3.2. Varieties Only  
   3.3. Trade between Countries of Similar Size  
   3.4. Trade between Countries of Different Sizes  
4. Coexistence of Inter- and Intra-Industry Trade  
5. Intra-Industry Trade and Income Distribution  
6. Economies of Scale and Economic Geography  
7. Preferred Variety and Intra-Industry Trade  
8. National versus International Economies of Scale

**International Factor Mobility**
94  
Bharati Basu, *Central Michigan University, USA*

1. Introduction  
2. Labor Mobility  
   2.1. Different Types of Migration  
   2.2. Emigration and the Welfare of Those Left Behind  
   2.3. Unemployment and Emigration  
   2.4. Government Policies in the Presence of Permanent Emigration  
      2.4.1. Presence of External Effects  
      2.4.2. Temporary Migration and Guest Workers  
   2.5. Brain Drain  
   2.6. Illegal Migration  
   2.7. Learning by Doing and International Migration  
3. Capital Mobility  
   3.1. Capital Transfer  
   3.2. Factor Mobility and National Advantage  
   3.3. Trade and Capital  
   3.4. Capital Mobility and Production Patterns  
   3.5. Tariffs and Capital Movement  
      3.5.1. The Small-Country Case  
      3.5.2. The Large-Country Case  
   3.6. Multinational Firms

**The Balance of Payments and the Exchange Rate**
115  
Anthony J. Makin, *The University of Queensland, Australia*

1. Introduction  
2. Evolution of the International Monetary System  
   2.1. The Gold Standard and Bretton Woods
4. The Foreign Exchange Market and Exchange Rates
   4.1. Goods Arbitrage and Purchasing Power Parity
   4.2. Asset Markets and Yield Parity

Macroeconomic Policy and the External Sector

Dietrich K. Fausten, Monash University, Australia

1. Introduction
2. The Theory of Economic Policy
   2.1. Targets and Instruments of Macroeconomic Policy
   2.2. Instrument Assignment
   2.3. Policy Discretion and Rules
3. The Insular Economy
   3.1. The Policy Dilemma
   3.2. Capital Mobility and the Policy Mix
4. The Open Economy
   4.1. National Income and Expenditure
   4.2. International Competitiveness
   4.3. The Policy Problem Revisited

The International Architecture (Institutions and Policy)

William Coleman, University of Tasmania, Australia

1. Introduction
2. The Banks
   2.1. The International Monetary Fund
      2.1.1. The Fund 1946–1973
      2.1.2. The Fund after 1973
      2.1.3. Operations
      2.1.4. Issues
   2.2. The World Bank
      2.2.1. Operations
      2.2.2. Issues
   2.3. The Bank for International Settlements
      2.3.1. Operations
      2.3.2. Issues
3. The Blocs
   3.1. Euro/ECB: European Monetary Union
      3.1.1. Operations
      3.1.2. The Euro As a Rival for the U.S. Dollar
   3.2. The Communauté Financière Africaine Area
4. The Clubs
   4.1. The Paris Club
   4.2. The Highly Indebted Poor Countries Debt Initiative
5. The Accords
   5.1. The Group of Eight
      5.1.1. Issues

The Banks: The IMF, The World Bank, the Bank of International Settlements

Prema-chandra Athukorala, Australian National University, Australia

1. The International Monetary Fund
   1.1. Objectives and Operation
   1.2. Promoting International Monetary Cooperation
   1.3. Maintaining Orderly Exchange Arrangements
Emerging Capital Markets 306
Jon D. Stanford, University of Queensland, Australia

1. Introduction
2. Financial Markets in Emerging Market Economies
3. Emerging Capital Markets
4. Emerging Capital Markets and Investment
5. Global Capital Markets
   5.1. The Nature of Emerging Market Crises
       5.1.1. Financial Crisis in Mexico
       5.1.2. The Asian Financial Crisis
       5.1.3. The Financial Crisis in Brazil

Index 331

About EOLSS 339

VOLUME II

Multinational Banking and Global Capital Markets 1
Barry Williams, Bond University, Australia

1. Globalization of the International Financial System
   1.1. Multinational Banking: A Brief Taxonomy
   1.2. Organizational Structures in Multinational and International Banking
       1.2.1. Correspondent Banking
       1.2.2. Representative Offices
       1.2.3. Agencies
       1.2.4. Consortium Banks
       1.2.5. Merchant Bank Subsidiaries
       1.2.6. Edge Act Corporations
       1.2.7. Bank Branches
       1.2.8. Bank Subsidiaries
   1.3. Reasons for Expansion Offshore by Multinational Banks
   1.4. The Size and Scope of Multinational Banking
2. Global Markets and Instruments
   2.1. Development of the Euromarkets
   2.2. Attractions of the Euromarkets
   2.3. Eurodeposits
   2.4. International Money Markets
   2.5. Syndication
   2.6. Eurobonds
   2.7. Foreign Bonds
   2.8. Offshore Equity
   2.9. Offshore Financial Centers
3. The Future of Multinational Banking
4. Regulation of International Banking and Capital Markets

The Globalization of the International Financial System 29
Christopher M. Adam, University of Sydney, Australia

1. Introduction
   2.1. A Market System
2.2. An Intermediated System
4. International Banks and the Macroeconomy
5. Limits to International Banking?

The Evolution of Global Financial Markets and New Financial Instruments
Christopher M. Adam, University of Sydney, Australia

1. Introduction
2. Analysis of Eurocurrency Deposit and Loan Pricing
   2.1. A Static Model
   2.2. A Dynamic Model
   2.3. Specific Pricing Examples
3. Financial Innovation
   3.1. The Demand for Financial Innovation
   3.2. The Supply of Financial Innovation
4. Financial Product Life Cycle
   4.1. Transactions and Monitoring Costs
   4.2. Regulation Costs
   4.3. Taxes
   4.4. Constraints
   4.5. Segmentation
5. Analyzing New Complex Financial Instruments
   5.1. The Building-Block Approach
   5.2. The Functional Method
6. Conclusions

The Future of Multinational Banking
Christopher M. Adam, University of Sydney, Australia

1. Introduction
2. The Changing Paradigm for Multinational Banking
3. Technical Progress and MNBs
4. Empirical Review of Technology Impacts
   4.1. "Pure" Internet banking
   4.2. Online hybrids
   4.3. Online alliance
   4.4. "White labeling"
5. Conclusion

The Regulation of International Banking and Capital Markets
Christopher M. Adam, University of Sydney, Australia

1. Introduction
2. An Optimal Level of International Bank Regulation?
3. Principles of International Bank Regulation
   3.1. Host Country Rule
   3.2. Home Country Rule
   3.3. The Principle of Reciprocity
   3.4. The Principle of Separation of Solvency and Liquidity Responsibility
   3.5. The Principle of Regulatory Policy Harmonization
4. Types of International Bank Regulation
   4.1. Risk-based Capital Standards
   4.2. Fitness and Properness Standards
   4.3. Credit-related Regulation
4.4. Position Risk Regulation  
4.5. Liquidity Risk Regulation  
4.6. Marking-to-Market Accounting  
4.7. Line-of-Business Regulation  
5. How International Banks Have Reacted to Regulations  
   5.1. Location  
   5.2. Organizational Form  
   5.3. Financial Innovation  
   5.4. Transfer pricing  

### Strategic Developments in International Trade  
Pasquale M. Sgro, *Deakin University, Australia*  

1. Introduction  
2. Foreign Direct Investment and Multinational Enterprises  
3. Regionalism and Trade  
4. Globalization, Development, and Institutions  
5. Trade, Environment, and Economic Growth  
   5.1. World Environmental Organization  
6. Trade, Investment, and Competition  
7. Trade and Poverty  
8. Strategic Trade Policy  
9. International Labor Standards  
   9.1. History  
   9.2. Harmonization  

### Trends in International Trade Institutions  
Pasquale M. Sgro, *Deakin University, Australia*  

1. Introduction  
2. Trade Composition  
3. Global Economic Organizations  
4. The Environment and International Trade Agreements  

### Globalization and the Evolution of Trade  
Pasquale M. Sgro, *Deakin University, Australia*  

1. Introduction  
2. Globalization and Regionalism  
3. Regulatory Reforms and Trade Facilitation  
4. Corruption and International Trade  

### Strategic Interaction, Trade Policy, and National Welfare  
Bharati Basu, *Central Michigan University, USA*  

1. Introduction  
2. Game Theoretic Structure of Strategic Trade Policy  
3. Export Subsidy in a "Third Market"  
4. Subsidy Dollars versus Profit Dollars  
5. R&D Subsidies  
6. Timing of Strategic Policy Choice  
7. Findings from Calibration of Strategic Trade Policy Models  
   7.1. The Automobile Industry  
   7.2. The Computer Chip Market
8. Conclusion

### Legal Issues in Trade and Investment

Jeffrey Waincymer, *Deakin University, Australia*

1. Introduction
2. International Trade and Investment and Legal Infrastructure
3. Foreign Investment
4. International Trade Disputes and Conflicts of Laws
5. Inter-Governmental Trade and Investment Rights and Obligations
6. International Economic Organizations and Law
   6.1. The Bretton Woods System
   6.2. The International Monetary Fund (IMF)
   6.3. The IBRD (The World Bank), International Development Association (IDA) and the International Finance Corporation (IFC)
   6.4. The United Nations Conference on Trade and Development (UNCTAD)
   6.5. United Nations Commission on International Trade Law (UNCITRAL)
   6.6. The International Institute for the Unification of Private Law (UNIDROIT)
   6.7. The Hague Conference on Private International Law
   6.8. The Organization for Economic Co-operation and Development (OECD)
   6.9. The World Intellectual Property Organization (WIPO)
   6.10. Miscellaneous Organizations and Agreements
   6.11. Regional Arrangements
   6.12. Regulatory Co-operation
   6.13. The GATT and the World Trade Organization
      6.13.1. Key GATT/WTO Principles
      6.13.2. WTO Procedures

### Sustainable Development, Environmental Regulation and International Trade

Pushkar Maitra, *Monash University, Australia*

1. Introduction
2. The Environment and Development
   2.1. Sustainable Development
   2.2. The Environment and Development in Less Developed Countries
   2.3. The Role of Population
   2.4. International Trade and the Environment
   2.5. The Environmental Kuznets Curve
3. Institutions and the Environment
   3.1. Local versus Global Commons
   3.2. International Tradable Permits Program
   3.3. Tradable Permits Program in Practice
   3.4. Environmental Regulation
4. Environmental Labeling
5. International Debt and the Environment

### Growth and the Environment

Lata Gangadharan, *University of Melbourne, Australia*

Pushkar Maitra, *Monash University, Australia*

1. Introduction
2. A Brief History of the Relationship between Growth and the Environment
3. The Environmental Kuznets Curve Hypothesis
4. Trade and the Environment
5. Environmental Labeling
6. International Debt and the Environment
Property Rights and the Environment
Lata Gangadharan, University of Melbourne, Australia
Pushkar Maitra, Monash University, Australia

1. Introduction
2. Property Rights
3. Management of Commons
4. The Environment and the Global Commons

Environmental Regulation, International Trade, and Transboundary Pollution
Pushkar Maitra, Monash University, Australia

1. Introduction
2. International Competitiveness and the Migration of Dirty Industries
   2.1. Environmental Regulation and Net Exports
   2.2. Do Dirty Industries Migrate?
   2.3. Does Environmental Regulation Affect Investment?
   2.4. The Porter Hypothesis
3. Transboundary Pollution

Environmental Policy
Pushkar Maitra, Monash University, Australia

1. Introduction
2. Greenhouse Gas Emissions
   2.1. Key Elements of the Kyoto Protocol
   2.2. Carbon Sequestration
   2.3. Joint Implementation and the Clean Development Mechanism
   2.4. Emissions Trading Program
3. Multilateral Environmental Agreements
   3.2. The Montreal Protocol on Substances that Deplete the Ozone Layer
   3.3. The Basel Convention on Hazardous Waste
