## AREA STUDIES - REGIONAL SUSTAINABLE DEVELOPMENT: RUSSIA

### **Area Studies - Regional Sustainable Development: Russia - Volume 1**

**No. of Pages:** 401

**ISBN:** 978-1-84826-074-0 (eBook)

**ISBN:** 978-1-84826-524-0 (Print Volume)

### **Area Studies - Regional Sustainable Development: Russia - Volume 2**

**No. of Pages:** 407

**ISBN:** 978-1-84826-075-7 (eBook)

**ISBN:** 978-1-84826-525-7 (Print Volume)

## CONTENTS

### VOLUME I

**Regional Sustainable Development Review: Russia** **1**  
Nicolay Pavlovich Laverov, *Russian Academy of Sciences, Russia*

1. Introduction and historical overview
2. Protection and rational usage of natural resources
  - 2.1. Mineral resources
  - 2.2. Bioresources and conservation of biological diversity
  - 2.3. Water resources and their protection
  - 2.4. Protection of the atmosphere
  - 2.5. Management of land resources and promotion of sustainable agriculture
  - 2.6. Wastes as resources for sustainable development
3. Human resources
  - 3.1. Demographic dynamics
  - 3.2. Protection and promotion of human health
  - 3.3. Combating poverty
  - 3.4. Strengthening the role of major groups
    - 3.4.1. Gender situation in Russia: women towards sustainable and equitable development
    - 3.4.2. Children and youth
    - 3.4.3. Indigenous people and their communities
4. Technology and information resources
  - 4.1. Science and technology in transition to sustainability
  - 4.2. Information and communication resources
5. Institutional resources for sustainable development
  - 5.1. Education
  - 5.2. International co-operation
  - 5.3. Strengthening the multistakeholders' dialog
6. Conclusion

**Natural Resources as a Basis for Sustainable Development: Bioresources - Russia** **49**  
Alexandre S. Isaev, *Russian Academy of Sciences, Centre for Ecological Problems and Productivity of Forests, Russia*  
N.G. Rybalsky, *Ministry of Natural Resources, National Information Agency "Natural Resources", Russia*

1. Introduction
2. Biological Resources of Plant Origin
  - 2.1. Forest Vegetation
  - 2.2. Forest Fund Characteristics.
3. Grassy and Fruticulose Non-Forest Vegetation
  - 3.1. Usage of Wild Medicinal, Technical and Food Resources
4. Biological Resources of Animal Origin
  - 4.1. Terrestrial Biological Resources of Animal Origin
    - 4.1.1. Terrestrial Vertebrate Animals
    - 4.1.2. Invertebrate Animals
    - 4.1.3. Hunting Resources
    - 4.1.4. Measures for Conservation of Game Animal Resources
  - 4.2. Aquatic Biological Resources
    - 4.2.1. Assessment of the Condition of Aquatic Biological Resources
    - 4.2.2. Use of Fish Resources within the 200-mile Zone and the Continental Shelf
    - 4.2.3. Use of Freshwater Fish Resources.
    - 4.2.4. Use of Non-Fish Marine Produce

5. Conclusion

**Water Resources for Sustainable Development, With Particular Reference to Russia** **81**  
Martin Gaykovich Khublaryan, *Russian Academy of Sciences, Russia*

1. Introduction
2. Surface Water Resources of Russia
  - 2.1. Caspian Sea
  - 2.2. The Azov Sea Basin
  - 2.3. The Extreme North
  - 2.4. The Rivers of Russia
  - 2.5. Use and Quality of Surface Water Resources
3. Groundwater Resources: Their Quality and Use
4. Conclusion

**Protection of the Atmosphere in the Russian Federation** **95**  
Igor K. Larin, *Institute of Energy Problems of Chemical Physics RAS, Moscow, Russia*

1. Introduction
2. Quality of Atmospheric Air and the Level of Local Pollution
3. Influence of the Main Branches of Economy on the Quality of Atmospheric Air
  - 3.1. Industry
  - 3.2. Transport
4. Ecological Consequences of Pollution of Atmospheric Air
  - 4.1. Local Effects
  - 4.2. Global Effects
    - 4.2.1. Condition of the Ozone Layer in Russia
    - 4.2.2. Global Warming in Russia
    - 4.2.3. Transboundary Pollution of Air and Acid Rains
5. Some Methods of Protection of the Atmosphere Used in Russia

**Protection of the Oceans and Their Living Resources** **110**  
Alla V. Tsyban, *Russian Federal Service for Hydrometeorology and Environmental Monitoring, Russia*

1. Introduction
2. Russian Seas of the Arctic Ocean
  - 2.1. Sources and Transport of Pollutants
  - 2.2. Chemical Pollution
3. Russian Seas of the Pacific Ocean (Far Eastern Seas)
  - 3.1. The Bering Sea
  - 3.2. The Sea of Okhotsk
  - 3.3. The Sea of Japan
4. Russian Seas of the Atlantic Ocean
  - 4.1. The Baltic Sea
  - 4.2. The Black Sea
  - 4.3. The Sea of Azov
5. The State of the Russian Seas
6. Strategy for Protection of the Ocean and its Living Resources
7. Future Tasks of Ecological Investigations and Monitoring of Marine Environment

**General Approach to Planning and Management of Land Resources (With Particular Reference to Russia)** **131**  
G. V. Dobrovolskiy, *Institute of Soil Science, Moscow State University and the Russian Academy of Sciences, Russia.*

1. Earth's Land Resources
2. Land Resources of Russia
3. General Principles of Sustainable Use of Land Resources

**Combat Desertification, Deforestation and Drought** **144**

Nikita Glazovsky, *Russian Academy of Sciences, Russia*

1. Introduction
2. Desertification and Drought in Russia
3. Deforestation in Russia
4. Specific Features of Russia Distinguishing it from Other Countries Subject to Desertification and Drought
5. Main Directions of Combat against Desertification and Drought: Reforestation in Russia.
  - 5.1. Legal and Normative Basis
  - 5.2. Creation of a Network of Institutes, Enterprises and Organs
  - 5.3. Development of Scientific Research
  - 5.4. Collection and Analysis of Information
  - 5.5. Elaboration of Program of Actions
  - 5.6. Concrete Works on Fight against Soil Salinization, Sand Fixation and Forest
  - 5.7. Training of Personnel and Keeping the Public Informed
  - 5.8. International Cooperation
6. The Most Important Tasks for the Near Perspective

**Biodiversity Conservation in Russia** **159**

Dmitrii S. Pavlov, *A.N. Severtsov Institute of Ecology and Evolution, RAS, Moscow, Russia*  
M.I. Shatunovsky, *A.N. Severtsov Institute of Ecology and Evolution, RAS, Moscow, Russia*

1. Introduction
2. Current Status and Problems of Biodiversity Conservation in Russia
3. Russian National Biodiversity Program
4. National Legislation on Biodiversity Conservation
5. Conclusions

**Wastes as Resources for Sustainable Development** **174**

Alexander A. Arbatov, *Committee for Productive Resources, Ministry of Economy, Russian Federation, and Russian Academy of Sciences, Moscow, Russia.*

1. The origins and the essence of the problem.
2. Case studies
  - 2.1. Wastes from the mining and power industry
  - 2.2. Solid Household Wastes
  - 2.3. Pulling down buildings and processing of construction wastes
3. Means of solution and possibilities for the Russian Federation.

**Wastes and Problems of Sustainable Development** **197**

Michail G. Berengarten, *Department of Industrial Ecology, Moscow State University of Environmental Engineering, Moscow, Russia*

1. Introduction
2. Classification of Wastes
  - 2.1. Classification by Aggregative State
  - 2.2. Classification by Cause of Waste Formation
  - 2.3. Classification by the Stages of Production Cycle
  - 2.4. Classification by Chemical Composition

- 2.5. Classification by Classes of Danger
- 2.6. Classification by Methods of Waste Application
3. Problems of Waste Storage and Recycling
4. Typical Wastes and Methods of its Recycling and Regeneration
  - 4.1. Paper Rubbish
  - 4.2. Waste Wood
  - 4.3. Textile Wastes
  - 4.4. Used Automobile Tires
  - 4.5. Exhaust Oil Products and Oily Wastes
  - 4.6. Polymeric Wastes
  - 4.7. Mercury-Containing Lamps
  - 4.8. Ash-Cindery Wastes
  - 4.9. Solid Domestic Wastes

**Safe and Environmentally Sound Management of Radioactive Wastes in Russia** **212**  
Nicolay Pavlovich Laverov, *Vice-President of the Russian Academy of Sciences, Russia*

1. Introduction
2. Types and Inventories of Radioactive Waste
3. Disposal of Liquid Radioactive Waste
4. Current Practice of the Radioactive Waste and Spent Fuel Management
5. New Technologies of High-Level Radioactive Waste Conditioning
6. Conceptual Approach to Solution of the Problem of High-Level Radioactive Waste Safe Geological Disposal
7. Selection of Sites and Conditions for High-Level Radioactive Waste Geological Disposal
8. Conclusions

**Economic Reform and Integration of Environmental Priorities into Economic and Sectoral Policies in Russia and the Newly Independent States** **232**  
Renat A. Perelet, *Institute for Systems Analysis, Moscow, Russia*

1. Economic reform and sustainable development
2. Major economy-environment nexus issues
3. Measuring comprehensive human development
4. Towards closer ties between ministries of environment and ministries of economy
5. Some suggested areas of further cooperation among CIT

**Protection and Promotion of Human Health - Russia** **260**  
Irina P. Katkova, *Center for Socio-Economic Studies of Health and Health Care at the Institute for Socio-Economic Studies of Population, Russian Academy of Sciences, Russia*  
Elena V. Andriouchina, *Center for Socio-Economic Studies of Health and Health Care at the Institute for Socio-Economic Studies of Population, Russian Academy of Sciences, Russia*

1. Introduction
2. Health of the Population of Russia: Modern Problems and Tendencies
3. Social Policy and Health Improvement

**Combating Poverty in Russia** **287**  
Natalia M. Rimashevskaya, *Institute for Socio-Economic Studies of Population, Russian Academy of Sciences, Russia*

1. The notion and definition of poverty.
2. Poverty line definition
3. Poverty line in Russia.

4. Poverty measure.
5. The extent of poverty.
6. Composition of the poor and factors determining poverty.
7. Fighting poverty.

**Global Action for Women Towards Sustainable and Equitable Development 303**

E.V. Nikonorova, *Department of Ecology and Management of Natural Resources, Russian Academy of Public Administration Under the RF President, Moscow, Russia*

1. Sustainable Development Concept: Russian Realities
  - 1.1. Specific Features of Women's Position
  - 1.2. Women's Position as an Indicator of Crisis of Patriarchal Culture
2. Gender Grounds for the Development of World Culture
3. Specific Features of Russia
4. Expectations and Prospects
  - 4.1. Democratization Through "Feminization"
  - 4.2. Family and Gender Policy
  - 4.3. Russia as a Multinational State
5. Practical Steps
  - 5.1. Toward Sustainable Development
  - 5.2. Prerequisites

**Children and Youth in Sustainable Development in Russia 318**

Yelena Breeva, *Institute for Socio-Economic Studies of Population, Russian Academy of Sciences, Russia*

1. Historic Analysis of the Problem
2. The Present State of the Problem of Sustainable Development of Children and Youth
  - 2.1. Health of Children and Youth
  - 2.2. Education of Children and Youth
    - 2.2.1. Child Pre-school Establishments
    - 2.2.2. General Schools
    - 2.2.3. Out-of-school Education of Children
  - 2.3. Children and Family
  - 2.4. Economic Welfare
  - 2.5. Youth at Labor Market
  - 2.6. Drug Addiction and Alcoholism among Children and Youth
  - 2.7. Crime among Children and Youth
3. Perspectives for Sustainable Development of Children and Youth

**Recognizing and Strengthening the Role of Indigenous Peoples and Their Communities 332**

Vladimir Ilich Pavlenko, *Moscow 117036, Russia*

1. Indigenous Peoples of the Russian North on the Brink of the Third Millennium
  - 1.1. Population
  - 1.2. Economy
  - 1.3. State Policy
2. Perspectives of Indigenous People Development

**Index 345**

**About EOLSS 353**

## VOLUME II

### **Education, Public Awareness and Training in Russia**

1

Boris George Rezhabek, *Moscow 123007, Russia*

1. Historical, social and legal aspects of ecological education in Russia.
2. Ecological education in state educational Institutions.
  - 2.1. Higher educational institutions
  - 2.2. Average and special educational institutions.
  - 2.3. Comprehensive schools and additional general educational establishments.
  - 2.4. Preschool ecological education.
3. Ecological education in libraries, museums and Reserves of Russia
4. Ecological education and public ecological Organizations
5. Ecological education and a mass-media.
6. General condition of ecological awareness in Russia.

### **Measurements in Decision-Making**

19

Oleg Ivanovich Larichev, *Institute for Systems Analysis, Russian Academy of Sciences, 9, pr.60 let Octjabrja, Moscow, 117312, Russia*

1. Introduction
2. Five Different Methodologies in Decision-Making.
  - 2.1. Cost-Benefit Analysis
  - 2.2. Multi-Attribute Utility Theory (MAUT)
  - 2.3. Outranking Relations
  - 2.4. Analytical Hierarchy Approach
  - 2.5. Verbal Decision Analysis
3. Different Operations of Measurement
  - 3.1. Operations with Criteria as Items
  - 3.2. Operations with Alternative Estimation by Criteria
  - 3.3. Operations with alternatives
4. Verbal and Numerical Probabilities
  - 4.1. In Which Form Do People Prefer to Give and Receive the Evaluations?
  - 4.2. The Comparison of Pro and Contra
  - 4.3. Experimental Comparison
  - 4.4. Preference Reversal
  - 4.5. Comparative Verbal Probabilities
5. Importance of Measurement in Practical Decision Tasks
6. Replacement of Qualitative Evaluations by Numbers
7. Sensitivity Check
8. The Correspondence of Measurement and Type of Problem
9. The Base for Qualitative Measurements
10. Case-Study: An Application of the Method ZAPROS for R&D Evaluation
11. Conclusion

### **Development of Industrial Ecology in Russia**

41

Rudolf Sergejevich Permyakov, *Russian Academy of Civil Service, Moscow, Russia*

1. Introduction
2. Zero-waste technology
3. Carbonate and cement production from nepheline
4. Galvanic production
5. Principal and auxiliary processes
6. Impacts of industrial activity
7. The energy sector

8. Conclusion

**Small High-Technology Business for Sustainable Development** **52**  
 Viatcheslav M. Bouzник, *Khabarovsk Scientific Center, Far-Eastern Board of the Russian Academy of Sciences, Russia*

1. Introduction
  - 1.1. Definition of Sustainable Development
  - 1.2. The Role of Science in Sustainable Development
  - 1.3. Outline of the Relationship between Science and Sustainable Development
2. Particular Features of Science and Enterprise Development in Russia
  - 2.1. Russian Science and High-Technology Business
  - 2.2. Implementation of Scientific Developments
    - 2.2.1. Psychological Factors
    - 2.2.2. Economic Factors
    - 2.2.3. Organizational Factors
  - 2.3. Russia and the Paradigm of Sustainable Development
3. Small High-Technology Business
  - 3.1. Definition of Small High-Technology Business
  - 3.2. The Role of Small Business in Sustainable Development
  - 3.3. Particular Features of Small Hi-Tech Business
  - 3.4. Framework for the Implementation of Scientific Developments
  - 3.5. Forms of Hi-Tech Production
    - 3.5.1. Independent Production
    - 3.5.2. Production under License
    - 3.5.3. Joint Venture
    - 3.5.4. Strategic Alliance
  - 3.6. Particular Features of Small Hi-Tech Business
    - 3.6.1. Particular Features of Small High-Technology Concerns
    - 3.6.2. Criteria for Small-Scale High-Technology Products
  - 3.7. Comparison of Research and Enterprise Activities
4. The Relationship of Small High-Technology Business to Sustainable Development
  - 4.1. The Regulatory Mechanism for Small High-Technology Business
  - 4.2. Feedback Loop between Small High-Technology Business and Community
  - 4.3. Organizations and Self-Organization of Small Hi-Tech Business

**Strengthening the Role of Workers and Their Trade Unions - Russia** **71**  
 Nicolai N. Gritsenko, *Professor, Rector of the Academy of Labor and Social Relations, Moscow, Russia*

1. Introduction
2. A Short History of Development of Labor and Trade Union Movement in Russia
3. Trade Unions and Labor Movement in Present Public and State System of Russia
  - 3.1. Legal Basis of Trade Unions Activity
  - 3.2. Trade Unions' Functions in Social and Economic Life of the Country
  - 3.3. About the Role of International Labor Standards in Lawmaking and Law Protecting Activity of Trade Unions
  - 3.4. Rules and Mechanisms of Trade Unions' Regulation of their External Relations
  - 3.5. Problems Facing Trade Unions
4. Perspectives of Development of Labor and Trade Union Movement in the Twenty-first Century
5. Conclusion

**Science for Sustainable Development** **82**  
 Levana E. Mindeli, *Centre for Science Research and Statistics, Ministry of Science and Technology of the Russian Federation/Russian Academy of Sciences, Russia*

1. Russian Science during the Transition to a Market Economy
2. The Economic Significance of Science
3. Science and Social Stability
4. Science and the Informatization of Society
5. Science and International Cooperation
6. Problems of Reforming the R&D Sector in Russia

**Technological Progress for Sustainable Development in Russia 95**

N.V. Alimpiyev, *Ministry of Science and Technology of the Russian Federation, Russia*

V.N. Len'shin, *Ministry of Science and Technology of the Russian Federation, Russia*

1. Russia's technological sector: structure and management
2. Russia's technological complex in the transition period
3. Opportunities of scientific and technological complex and prospects for development of innovation

**Information Resources for Sustainable Development of Society 105**

Yu.M. Arskiy, *VINITI, Russia*

A.I. Chernyi, *VINITI, Russia*

1. The role of information in sustainable development
2. Efficiency of information dissemination
3. Information resources
4. A paperless society?
5. The Infosphere

**Telecommunications Infrastructure Changes for Sustainable Development of Russia 120**

Yuri Vasilyevich Gulyaev, *Institute of Radio Engineering and Electronics of the Russian Academy of Sciences, Russia*

1. Introduction
2. Historical Survey
  - 2.1. State of Affairs in the Field of Telecommunications in the USSR before 1991
  - 2.2. The Program of Telecommunications Developments in the USSR on the Period 1990–2005
  - 2.3. New Economic Conditions: Demand Exceeds Supply
  - 2.4. The Program of Telecommunications Developments in Russia for 1993–2010
3. Today State of Affairs in Russian Telecommunications
4. Some Prognoses of Telecommunications Developments in Russia

**High Technology and Health Care in Russia 136**

E.V. Yurtov, *Mendeleyev University of Chemical Technology, Russia*

N.M. Murashova, *Mendeleyev University of Chemical Technology, Russia*

1. Introduction
2. Information Technologies
3. Lasers in Medicine.
4. Sorption Methods in Medicine
5. Artificial Organs and Tissues
  - 5.1. Artificial Heart and Electric Cardiac Pacemaker
  - 5.2. Artificial Liver
  - 5.3. Artificial Bone Tissue
6. Membrane Technology
  - 6.1. Hemodialyzer as an Artificial Kidney
  - 6.2. Membrane Oxygenator as an Artificial Lung
  - 6.3. Water Purification

7. Biotechnological Methods in Drug Production
8. Achievements in Immunobiotechnology
  - 8.1. Creation of Modern Vaccines
  - 8.2. Production and utilization of monoclonal antibodies
9. Isotopes in Diagnostics and Therapy
  - 9.1. Radioactive Isotopes in Diagnostics and Therapy
  - 9.2. Stable Isotopes in Diagnostics
10. Ultrasonic Techniques
11. Conclusion

**Technology of Exploration and Management of Natural Resources** **152**

K.N. Trubetsky, *Research Institute of Comprehensive Exploitation of Mineral Resources of RAS, Moscow, Russia*

1. Introduction
2. Stages of Development of Natural Resources
3. Natural Resource Management, Utilization and Conservation: The State-of-the Art
4. Mineral Resources
  - 4.1. Primary Material Resources
  - 4.2. Fuel and Energy Sources
5. Directions and Prospects for the Development of Mineral Reserves and Resources in the Twenty-first Century
6. Strategy for Mutual Development of Natural Resources and People

**Promoting Sustainable Agriculture and Rural Development in Russia. Strengthening the Role of Farmers** **167**

Alexander A. Zhuchenko, *Russian Academy of the Agricultural Sciences, Russia*

1. Soil-climatic, relief and weather conditions in the main agricultural zones
2. Natural conditions and crop yield
3. Role of AIC in Russian economy and its state-of-the-art
4. The main causes of Russia's agricultural crisis
5. The means of Russian agricultural reformation.
6. Social and economic factors of effective land use
7. The role of Governmental regulation in AIC development
8. Perspectives of agriculture development

**Protection of Intellectual Property and Commercialization of Technology** **176**

Alexander N. Ozerin, *Institute of Synthetic Polymeric Materials RAS, Moscow, Russia*

M. A. Krykin, *Russian Academy of Entrepreneurship, Moscow, Russia*

1. Conceptual Background of Intellectual Property Management in Russia
  - 1.1. Introduction
  - 1.2. Intellectual Property and Intellectual Product
  - 1.3. General Principles of Intellectual Property Management
2. Right protection of Intellectual Property in a Real Sector of the Economy of Russia and USSR
  - 2.1. Historical Information
3. The United Patent Form of Invention Protection in Russia
4. State Regulation of the Economic Relations Concerning Intellectual Property and Technology Commercialization in Russia

**Evolution of the Nature Use Management System (for Transition to Sustainable Development) in Russia** **197**

Anatolii V. Shevchuk, *Department of Economics of natural resource use, Ministry of Natural*

*Resources, Russia*

Pavel V. Kasyanov, *Environmental Policy and Regulatory Support Component, Centre for Preparation and Implementation of International Projects on Technical Assistance, Russia*

1. Historical background
  - 1.1. Forest resources
  - 1.2. Mineral resources
  - 1.3. Land ownership
2. Current nature use management system
3. Areas of nature use management improvement
  - 3.1. General directions
  - 3.2. Natural resource accounting and evaluation in Russia
  - 3.3. Limitation and Licensing of Natural Resource Use
  - 3.4. Economic and financial mechanisms

**Strengthening the Role of NGOs in Russia: Partners for Sustainable Development**

220

Irina A. Khalyi, *Institute of Sociology, RAS, Russia*

1. Introduction
2. History of the Issue
3. Modern State of Russian Environmental Movement
4. Interaction with Power Structures
5. Case-Studies
6. Conclusion

**Local Authorities' Initiatives in Support of Agenda 21 - Russia**

243

Nikita Glazovsky, *Institute of Geography, Russian Academy of Sciences*

1. Objectives, Possibilities and Mechanisms of Sustainable Development at Different Levels of Natural-Social Systems
2. The main UN documents defining the activity of local authorities
3. The main international organizations of local authorities and their activity
4. Activities of local authorities in Russia to support Agenda 21
5. Conclusion

**International Institutional Arrangements and Financial Assistance**

260

Arthur Demchuk, *Moscow State University, Faculty of Philosophy, Moscow, 119899, Russian Federation, Russia*

1. Strategies and Priorities of Russian Federation in International Environmental Cooperation
2. Cooperation with International Organizations
3. Participation in International Conventions and Agreements
4. Institutional Arrangements for Bilateral Cooperation

**International Legal Instruments and Mechanisms on the Environment: A Russian Perspective**

278

Oleg S. Kolbasov (Deceased), *Institute of State and Law, Russian Academy of Sciences, Russia*

1. Constitutional Provisions
2. The Principle of International Law Priority
3. Russia's Participation in International Cooperation on Environmental Issues
4. Declarations of the UN Conferences
  - 4.1. The Stockholm Declaration on the Human Environment (1972)

- 4.2. The Rio Declaration on Environment and Development
5. The UN Framework Convention on Climate Change
6. Conventions for the Protection of the Ozone Layer (Vienna 1985 and Montreal 1987)
7. The Geneva Convention on Long-Range Transboundary Air Pollution
8. The Convention on Biological Diversity
9. The Convention Concerning the Protection of World Cultural and Natural Heritage
10. Russia's Participation in International Conferences
11. Russia's Participation in International Environmental Organizations
12. The International Covenant on Environment and Development

**Disarmament and Conversion : General and Russian Perspectives 292**

Grigori S. Khozin, *Center of World Economy and Global Problems, Russian Diplomatic Academy*

1. Introduction
2. Conversion for Sustainable Development
3. Disarmament, Conversion and Sustainable Development in the Framework of Global Problems
  - 3.1. Global Problems—Agenda for Survival
  - 3.2. Some Concepts and Definitions of Conversion
4. Conversion in the Russian Federation
  - 4.1. The Soviet Military-Industrial Complex—Russias Troublesome Legacy
  - 4.2. General Planning and Implementation of Conversion in Russia
  - 4.3. Legal and Organizational Principles of Conversion in Russia
  - 4.4. Conversion in the Russian Space Program—High Technology Conversion
5. Conversion in Russia Compared with Conversion in Some Other Countries: Case Studies
6. Concluding Remarks

**The Interaction of Branches of Power in the Transition to Sustainable Development in Russia 311**

Grigori S. Khozin, *Center of World Economy and Global Problems, Russian Diplomatic Academy, Russia*

1. Introduction
2. The Making of Environmental Policy in Russia
  - 2.1. Historical origins
  - 2.2. Conceptual Norms of Socialist Resource Utilization
  - 2.3. Legal Principles and Mechanisms of Implementation of Environmental Policy in the Soviet Union
3. Priority Problems of Branches of Power Responsible for Transition to Sustainable Development
  - 3.1. Environmental Norms in the Constitution of the Russian Federation and in the Standing Legislative Documents
  - 3.2. Implementation of the National Strategy of Transition to Sustainable Development
  - 3.3. Environmental Education Service of the Branches of Power Responsible for Transition to Sustainable Development
4. Concluding Remarks

**Management Responses to the Challenge of Sustainable Development in Russia 330**

Renat A. Perelet, *Institute for Systems Analysis, Moscow, Russia.*

1. The Russian federal government response
2. Evolution of sustainable development approaches in Russia
  - 2.1. Early inroads
3. Sustainable development in the wake of UNCED
4. Approaches to sustainable development
5. An overview of Russia's concept of transition to sustainable development and its implementation
6. Economic instruments for integration of environmental and industrial policies
7. Regional aspects of sustainable development

8. Criteria for decision making and sustainable development indicators
9. Russia and transition of world community to sustainable development
10. Stages of Russia's transition to sustainable development
11. Conclusions
