

## Institutional IP Address / Ranges

The Eolss Publishers ("Licensor") has enabled IP-address-based access control for institutional subscribers. Each computer that accesses the Internet is assigned an IP address, commonly represented as four number groups separated by dots (e.g., 192.168.40.10). All computers on a local area network, or subnet, may have the first two or three number groups in common. Access to DESWARE-Online from your institution will be authorized based on the IP addresses and / or ranges you provide. (It is recommended that you consult with your network administrator to determine your IP addresses, subnets, and other critical information about your institutions network configuration.)

All information provided regarding your IP address will be verified by the Licensor, and your network contact (which must be provided) will be contacted if additional clarification is necessary.

Please type your IP address/range in the following formats:

**Class B Network:** Enter the first two (network) numbers and use asterisks for the host addresses, i.e., 128.168.\*.\*

**Class C Network:** Type the first three (network) numbers and an asterisk for the host addresses, i.e., 192.168.10.\* (ranges are acceptable; type 192.58.150.\* - 192.58.152.\* to indicate Class C ranges)

**Single Station:** Type all four numbers, i.e., 192.168.18.10 (ranges are acceptable; type 192.168.10.10 - 192.168.10.30 to indicate ranges of single stations)
